What Kinetech Offers:

- **Unified Communications:** Kinetech's solutions are feature-rich, seamlessly integrating your entire company. Communicate from any device- from anywhere.
- **Multi-Location and Mobility:** Our technology seamlessly connects All Resident/Group Homes and Remote Sites with one number access and find me-follow me. Use a SmartPhone to make and receive calls from anywhere.
- **Electronic Fax:** Our Electronic Desktop Fax solutions simplify sending and receiving faxes from your computer and email. Create individual fax accounts for HR, nursing staff, etc.
- **Audio and Video Conferencing:** If your business requires conducting routine remote presentations and team meetings, our remote conference service for up to 150 participants.
- **Broadband/Failover:** Our partner relationships with business broadband providers can help you consolidate your bills for phone service together with your Internet connection.
- **HIPAA Compliance:** As a HIPAA Business Associate, we can help make sure that you, and your clients, are protected.
- **Paging/ Intercom:** Two way communications, and building entry/ access control during and after hours, within and across buildings for safety and security.
- **Emergency/911 Notification:** Emergency responders need to rapidly locate the origin of a 911 call when arriving at a a business or school address. Site personnel also need to be notified so they can meet the emergency responders.
- **Contact Center:** We provide a complete, full-featured contact center that enables companies to handle every incoming call with precision and professionalism.

Kinetech's Strengths

- **Fully Managed Service:** Our fully managed service significantly reduces overall costs, improves communications, enhances employee productivity, ensures first class quality, and provides high reliability and business continuity.
- **High Quality:** Our voice service is designed from the ground up to deliver high quality and reliability. It allows you to focus on running your business-and not on running your phone system.
- **Business Continuity:** Centralized 24X7 monitoring and highly automated troubleshooting allow Kinetech to deliver the quality of service needed by today's discerning customer.
- **Gold Standard Support:** That's where we excel- We pride ourselves in the experience and expertise we bring to the table. Supporting our customers is our first and last thought every day for our local service and support team.
